

## Use "sysrc" instead of "echo" or heredocs for "rc.conf" modifications

```
sysrc setting="value"
```

## Better top

```
nice top -j -P -S -z -I -t  
top -j -S -u -b -w -q -a
```

## Reinstall Port

```
make deinstall install clean
```

## Add Disk and move ezjail Jails

```
camcontrol devlist  
gpart show da1  
gpart create -s GPT da1  
gpart add -t freebsd-ufs -a 1M da1  
newfs -U /dev/dalp1  
mkdir /data  
gpart show da1  
vim /etc/fstab  
mount /data  
service ezjail stop  
mkdir -p /data/usr/jails  
time rsync -aP /usr/jails /data/usr/  
vim /etc/fstab.jail_1  
vim /etc/fstab.jail_n  
vim /usr/local/etc/ezjail.conf  
vim /usr/local/etc/ezjail/jail_1  
vim /usr/local/etc/ezjail/jail_n  
mv /usr/jails{,_old}  
service ezjail start
```

## Memory Usage

<https://raw.githubusercontent.com/ocochar/myscripts/master/FreeBSD/freebsd-memory.sh>

## Iterate over iocage jails

```
for j in $(iocage list -q -h | cut -f1); do echo "$j:\r" && iocage exec $j  
freebsd-version; done
```
